

BUSINESS & MANAGEMENT

At S:t Eskils Gymnasium we teach the Business & Management Program in English. With us, you will follow the Swedish Ekonomiprogrammet, but everything is done in English.

This has allowed many of our excellent pupils to study abroad once the program is finished

WHAT YOU WILL STUDY

Our outstanding teachers in the Business & Management Program at S:t Eskils work with topics such as marketing, accounting, calculations, human resources, leadership and management, and law, both through theoretical lessons and practical study cases based on everyday life.

You will meet and visit international companies and participate in different seminars with local entrepreneurs. You will learn how to start a business through the experience of Young Achievement (Ung Företagsamhet – UF).

AFTER GRADUATION

Qualifying from the Business & Management Program at S:t Eskils Gymnasium will allow you to study a range of exciting topics both at home and abroad.

Your extra education in English will allow you to attend university in Australia, Ireland, England, the USA, or any other country that has university degrees taught in English. Many of our former pupils now study abroad and believe that this program has given them the tools to excel.
