

INTERNATIONAL BACCALAUREATE

Do you want to join an international, world-renowned program and get the highest quality preparation for university and life as a global citizen? IB graduates become doctors, politicians, business leaders, engineers, lawyers and more.

You can take the equivalent of samhällsvetenskaps-, naturvetenskaps-, ekonomiprogrammet, or choose your own study path. We communicate in English and many of our expert teachers are also native speakers.

What you will study

After completing a preparation year (Pre-IB) you choose:

- Two languages - all of our students graduate with a bilingual diploma, either in Swedish / English, or English / your strongest language.
- Three subjects in detail, chosen according to your interest and needs, from a wide range of sciences (physics, chemistry, biology, ESS) and humanities (business, psychology, economics, history, global politics)
- Maths appropriate to your needs.

You will also learn how to think critically (ToK), get credit for your outside interests, activities and good deeds (CAS) and write a research project in a subject of your choice (Extended essay).

After graduation

You will have the skills and knowledge to succeed in the best universities anywhere in the world (including Sweden!). Research shows that IB graduates are better prepared, in every way, for university life and beyond.

S:t Eskils gymnasium Eskilstuna
